

# MegaPlus : Product by Application - FILM

## Film – LDPE

MegaPlus PE Film grades have a medium to high molecular weight with good process ability and mechanical strength. They can be use for blown film applications such as general purpose bags, shopping bags, linear films, garbage bags

Product Type	Product	Grade	Appearance	MFR (g/10min)	Density (g/cm3)	Characteristic	Application
LDPE	FILM EPE FOAM	R60LDF-TR1	Slightly yellow pellet	3.0-5.0	0.920-0.924	Gloss, Good process ability	General purpose bags, EPE foams, Bubble sheets
LDPE	FILM EPE FOAM	R60LDF-TR2	Yellow to brown pellet	3.0-5.0	0.920-0.924	Good process ability Medium strength	General purpose bags, EPE foams, Bubble sheets
LDPE	FILM	R60LDF-BK	Black color pellet	3.0-5.0	0.920-0.924	Good process ability Medium strength	General purpose film, Agricultural film
